

Experiment - 14

Simulation x.y.z company network design & simulate using Packet tracer.

Aim "To" simulate x.y.z company network design and simulate using Packet tracer.

Software: Packet tracer, End devices, Hubs, Connectors

Procedure:

1. Start Packet tracer
2. Create new project
3. Add devices
4. Connect devices
5. Configure devices
6. Add applications
7. Test the network
8. Monitor network traffic
9. Make adjustments as needed
10. Save the project.

Result: Therefore Stimulating of companies network designing has successfully done using Packet tracer.
